Architektonická kancelář Bekkering Adams Architecten založila v roce 1997 Juliette Bekkering (1963). V roce 2005 se dalším partnerem stala Monica Adams (1964), která do té doby pracovala jako podílník v kanceláři Ericka van Egeraata. Ve tvorbě Juliette Bekkering je ještě lehce viditelný vliv Koolhaase, Neutelingse a Riedjika, se kterými pracovala jako studentka. Její tvorba „domu jako ikony“ je poměrně překvapivě založena na velmi pečlivé analýze účelu, vlivu na veřejný prostor a mimořádné schopnosti používat nejrůznější materiály a řešit jejich návaznosti zajímavými detaily.

ARCHITECTEN | BV

Bekkering Adams architecten is a Dutch architectural office founded in 1997 in Rotterdam by Juliette Bekkering. She graduated from the University of Technology Delft in 1988. After graduation, she worked at the architectural office of Erick van Egeraat. In 1997, she founded her own office with Monica Adams. They have since completed numerous projects, both in the Netherlands and abroad. Their work is characterized by a combination of traditional and modern design. Over the years, different themes have been established, such as residential, institutional, and cultural projects. The firm is known for its innovative and sustainable designs, which focus on the needs of society and the environment. They believe that architecture can make a positive impact on people's lives and the environment.
